EMERGENCIES

ON CAMPUS — 911 or BLUE LIGHT PHONE

All police, fire, medical, and safety emergencies — Public Safety

OFF CAMPUS — 911

All police, fire, medical, and safety emergencies — Tompkins County operators will dispatch the appropriate service(s)

NON-EMERGENCY POLICE CALLS

On Campus

Public Safety 274-3333 or 3333

In City of Ithaca

Ithaca Police Department 272-3245

Outside City

Tompkins County Sheriff's Department 272-2444

New York State Police 273-4671

Emergency Closing Hot Line 274-1495

This number provides recorded information about any emergency closings of the College caused by hazardous weather conditions, fire, flood, power failure, or any other cause.

The Ithaca College Office of Public Safety is open 24 hours a day to serve the campus community.

For any on-campus emergency, dial 911 (there is no need to dial a 4 first) or pick up a public-access emergency telephone ("blue light phone") for a direct connection to the office. You can also call public safety for non-emergencies at 274-3333 (3333 from any campus system phone).

The Ithaca College directory is published annually by the Office of Marketing Communications, Ithaca College, Ithaca, New York.

This directory is intended to facilitate communication with and within the Ithaca College community.

Use of this directory for solicitation or other commercial purposes is strictly prohibited.

HOW TO USE THE ITHACA COLLEGE TELEPHONE SYSTEM

The following instructions are intended for faculty and staff use of the Ithaca College telephone system. Student phone service is available in the residential halls by request only. Students must provide the phone. Please contact the ITS Helpdesk, 274-3282 or helpdesk@ithaca.edu to request phone service. Students using this service can refer to the "Ithaca College Student Telephone User Guide" available at www.ithaca.edu/computing/support/ under Software and Systems: Telephone and Voicemail Service for more details.

Directory Assistance

Campus numbersDial 4-3201
Local numbers (and long-distance calls within area code 607).....Dial 9+555-1212
Long distanceDial 9+1+area code+555-1212
Off-campus directory assistance inquiries are subject to a charge.

General Dialing Instructions

Direct inward dialing (DID) and outward dialing are available on most campus telephones. In some cases, public telephones are restricted, usually to on-campus calls.

- For long-distance calls dial 9+1+area code+seven-digit number.
- For collect and credit card calls dial 9+0+area code+seven-digit number. Give the operator the necessary billing information.
- International calls can be placed without operator assistance. Dial 9+011+ country code+city code+telephone number. If you hear the reorder tone (a fast busy signal), all international circuits are busy. Wait a few minutes and try your call again. If the country you wish to call does not have direct dialing, dial 9, wait for the dial tone, and then dial 0; the operator will place your call.

Local Calls

- On-campus calls from campus telephones (including residence hall rooms): Dial the last five digits of the number.
- Off-campus calls from campus telephones: Dial 9 plus the number.

Each local call placed from a campus telephone to an off-campus telephone incurs a per-minute charge.

Long-Distance Calls

When you follow the proper dialing instructions, the phone system will automatically select the most cost-effective circuit for your call and will bill the call to the telephone from which the call was placed. Authorization codes are not needed unless you are using a restricted telephone. If you are unsure whether the telephone you are using is restricted or nonrestricted, attempt to place your call. If after dialing you hear the recall dial tone (three-burst tone followed by dial tone), your line may be restricted. Please contact the Helpdesk for an authorization code.

Billing

Local and long-distance calls are billed automatically to the telephone from which the calls were placed. Calls placed from restricted telephones (via authorization codes) are also billed to the telephone used to place the call. The calling number is always listed on the call detail bill. Authorization codes must be issued by Information Technology Services. Call 4-3282 for information on obtaining these special codes.

Authorization codes must be used on restricted telephones to allow long-distance calls to be placed; their use overrides the restriction for a single call. Multiple authorization codes can be provided if necessary.

SINGLE LINE AND MULTI-LINE (D-TERM) PHONE FEATURES

Call Forward

Single Line: Call forward redirects all your incoming calls to another inside extension. To invoke call forward, dial *2. When you hear a dial tone, dial the five-digit number to which you want to forward your calls. You will then hear a confirmation tone (three short beeps). During the time your calls are forwarded, you will hear a short “ring” each time a call is redirected from your extension. Dial #2 to cancel call forward.

Multi-line D-Term: To find the “FWDA” soft key, press the “Help” soft key (found above the programmable speed dial buttons) repeatedly until FWDA is displayed. Press the soft key below the FWDA to set forwarding. Lift handset or press SPEAKER, press FWDA soft key, dial 5-digit extension to forward calls to (listen for confirmation tone). All calls are then forwarded. Calls are forwarded when FWDA (flashing) is displayed. To cancel forwarding: lift the handset or press SPEAKER, press FWDA soft key (listen for confirmation tone), FORWARD CANCEL is displayed, press SPEAKER or hang up.

Call Pickup

Single Line: Call pickup enables any person in a specified group of people to answer another person’s phone call without leaving his or her desk. To answer a ringing phone that is part of your group, dial *3 to redirect the call to your phone. If you dial *3 and a ringing call is not transferred to your phone, that particular phone is not in your pickup group.

Multi-line D-Term: To find the “PICK” soft key, press the “Help” soft key (found above the programmable speed dial buttons) repeatedly until PICK is displayed. To answer any ringing phone in your Call Pick Up group: lift handset or press SPEAKER, press PICK soft key, you are connected to the incoming call (the first incoming call if more than one line is ringing).

Call Pickup—Directed

Single Line: Directed call pickup enables any person to answer another person’s phone call without leaving his or her desk. To answer a ringing phone that is not part of your group, dial #3 and the five-digit extension number of the phone that is ringing.

Multi Line D-Term: To answer a specific ringing phone if more than one is ringing, lift the handset or press SPEAKER, dial #3 and the five-digit ringing extension. You are now connected to the incoming call.

Conference

Single Line: To add a third party to an existing conversation, depress and release the switch-hook. When you hear the recall dial tone, dial the third party. After the third party answers, depress and release the switch-hook again. If you receive a busy signal or no answer from the third party’s telephone, depress and release the switch-hook. You are then reconnected to your first call.

Multi-line D-Term: To establish a conference call, answer or place the call, press TRANSFER, dial the party to be added (announce conference) press CONF. If added party is busy or does not answer, press TRANSFER. You are now on with the original caller only.

Hold

Single Line: A call can be placed on hold by depressing and releasing the “flash” button. When you hear the recall dial tone, dial *9. Do not replace the handset. Once you place a call on hold, your line becomes free for you to place another call. To return to the held call, depress and hold down the switch-hook or “flash” button until your telephone rings. **Note:** You can perform two functions with the switch-hook: 1) put a call on hold; 2) disconnect a call. It is possible to place a call on hold inadvertently. If you hear the recall dial tone after depressing the switch-hook, the call is on hold. If you hear a dial tone, the call has been disconnected. You could be billed for two simultaneous calls if you do not disconnect the first call before making a second call.

Multi-line D-Term: To place a call on hold so that it can be retrieved from the other phones with that line, press HOLD once. To place a call on hold so that it can only be returned from that phone, press HOLD twice. To retrieve the call from hold, lift the handset or press SPEAKER, press the flashing line key.

Transfer

Single Line: Incoming calls can be transferred from one campus telephone to another. To transfer a call you must be on the line with the caller. Tell the caller the number to which you will transfer him or her, then depress and release the “flash” button. When you hear the recall dial tone, dial the campus number. When you hear the line ringing, you can either hang up or wait to announce the call when it is answered. In either case, by hanging up you automatically transfer the call.

Occasionally when a call is transferred, the destination extension will be forwarded to voice mail and the transferring party needs to get the call back. If you reach voice mail when you are transferring a call, press the # key and at the tone (beep) immediately press 9. The voice mail system will say “nothing recorded,” there will be a pause (approximately three to five seconds), and then the message “thank you for calling, good-bye.” There will be a click in the earpiece indicating the voice mail system has dropped the line, and the outside party is now reconnected to the party that initiated the transfer.

Multi-line D-Term: To transfer a call to another extension: press TRANSFER, dial five-digit extension, and wait to announce the call or hang up when dialed extension starts ringing. To cancel the transfer and return to the original caller, press TRANSFER.

Additional Information:

For more detailed instructions and other features for the multi-line phones see the Multi-line DTerm phone guide available on the ITS website.

Campus Telephone Services

Dial the ITS Helpdesk at 4-3282 or email helpdesk@ithaca.edu for

- repair service
- new connections and/or telephone service changes
- telephone number and location changes

ITHACA COLLEGE VOICE MESSAGING

The Ithaca College voice messaging system allows system users to create, send, receive, store, and forward recorded messages using a telephone. The system can also serve as an alternate answering point for telephones connected to the Ithaca College telephone system. Voice messaging service is available to Ithaca College students, faculty, and staff.

Faculty and staff wishing to subscribe to the voice messaging service should contact Information Technology Services at extension 4-1000 to request an application form. The application form is also available online at www.ithaca.edu/computing/forms/pdf/Voice_Mail_Account_Request_Form.pdf. Information Technology Services will establish a voice messaging system account and provide instruction and documentation on how to use the system. The voice mail user guide is available at www.ithaca.edu/computing/quickguides/pdfs/phn_VMailVerizonGuide.pdf

ELECTRONIC MAIL (E-MAIL) SERVICE

The College offers e-mail service for on-campus and off-campus communications for faculty, staff and students. All official Ithaca College business communications are sent only to the Ithaca College e-mail account for faculty, staff and students. Accounts are automatically created but must be activated online prior to being used. E-mail addresses for many faculty and staff can be found in the “Faculty and Staff” section of this directory. E-mail addresses for all subscribers can also be found on the College’s website (www.ithaca.edu). Contact the Helpdesk at 274-3282 or helpdesk@ithaca.edu regarding any questions concerning this service.
