- ♦ Brazil – *Semester:* Amazonian Resource Management; Culture, Dvlpmnt. & Social Justice; Public Health & Community

Middle East

- ♦ Jordan – *Semester:* Modernization & Social Change; *Summer:* Appropriate Technology & Sustainable Development; Intensive Arabic Language Studies

Please note that SIT runs many more programs than those listed above, but that ONLY those listed in this publication are currently approved for affiliated status through Ithaca College, and the list may change without notice (check with International Programs for updates). All other SIT programs are currently considered NON-AFFILIATED. Students may elect to participate in those programs but must take a leave of absence from the College, and should familiarize themselves with the information about how credits, grades and financial aid work while on non-affiliated programs, found below on this page.

Please also note that any program held in a country in which there is an active US Department of State travel warning in effect is also considered non-affiliated. Therefore, should a travel warning be issued for one of the above countries, that program would automatically become a non-affiliated program. Check the U.S. Department of State website at <http://www.travel.state.gov> for an updated list of travel warnings.
