

Recruiting and Employer Outreach Summary 2015-2016

Career Services has continued to increase its outreach efforts to employers through tailored marketing and involvement in several professional associations. To support internship and job opportunities, as well as special events, we build relationships with national and local professionals alike. In 2015-2016 Handshake, our new posting system came on-line and immediately enabled us to connect with a more diverse employer pool. A consequence of this change is a significant increase in the number of job and internship opportunities available to students and alumni.
