

Sustainable Tompkins Listserv

TO SUBSCRIBE: Send an e-mail to SustainableTompkins-subscribe@topica.com or visit <http://lists.topica.com/lists/SustainableTompkins>.

TO SEND MESSAGES: Once you are subscribed, you can send a new message to all other subscribers at SustainableTompkins@topica.com. Replies to messages go to all other users, so be sure your reply is appropriate for the entire group, not just the individual to whom you're responding.

TO UNSUBSCRIBE: If you need to remove yourself from the list at a later date, send an e-mail to SustainableTompkins-unsubscribe@topica.com.

HTML: Avoid posting any important HTML content directly within messages to the group since many users have e-mail client software configured to not display such content.

ATTACHMENTS: The list is also configured to accept and distribute attachments up to 100 KB in size. Before sending attachments, please be vigilant against virus infections on your computer. Also, all subscribers should be sure their own computers have anti-virus software installed and functioning properly before opening any attachments from this or other lists.

MORE INFO: A more detailed manual for the Sustainable Tompkins discussion list can be found at <http://lists.topica.com/lists/SustainableTompkins/prefs/manual.html>. Please consider this your first source of assistance when having problems of any kind.

MANAGING YOUR MESSAGES: Consider setting up your e-mail client software to place all messages from SustainableTompkins@topica.com in the same folder, leaving your main inbox and your ST listserv participation more manageable.
