

1999 Racing Season

THE "FLYING SCHOOL TEACHER" CONTINUES with
his SECOND YEAR
of the TRACK CHAMPIONSHIP TITLE!

1999 proved to be just as exciting for the fans and competition at the Mountain once again. [Cliff Pierce](#) had a battle with many of the dwarf car drivers this year. His hardest challenge seemed to be one of his racing buds, Kenny Titus. Cliff and Kenny had a battle going each week as it came time for the checkered flag. It was such a close points race that the last night of the season was important for either of them to claim the Track Champion title. Just a few points away from each other, the driver to finish in front of the other would claim the title. The pressure was on, and both had a good sense of humor and sportsmanship throughout the season and last night. As the peddles were down for their last race, Kenny had the lead for several laps. Shortly after Cliff came into the picture and had a struggle getting past Kenny. Once the lead was accomplished, Cliff pulled a head and once again, took the checkered flag! As he become acquainted with Victory Lane over the last two seasons, he thanked all of the drivers for another great year of racing!

He would also like to thank his sponsors: Spencer Big M, Harry's Automotive, Sam's Auto Parts, and Signworks.
