

RACING IN THE YEAR 2001

I got to take the car out for two weeks for the Powder Puff race. The first time was not as much fun as the second time. On my second chance I was a bit more daring--putting the pedal down on the straight-a-ways and pushing it much more than before in the corners. Getting the car to victory lane was quite fun! Too bad I need to wait until next year to do it again.

Cliff would like to thank his continued sponsors: Spencer Big M, Harry's Automotive, Sam's Auto Parts, and Signworks.

2001 opens up for **Cliff (#9)** with the same car as last year. This ended up being another great season. Cliff finished 3rd in points and was #1 for the fans' favorite driver during part of the season.

In the picture above he and his younger brother, **Curt (#2)**, have fun racing side by side.

In the yellow #4 Car is **Calvin Pierce**. Calvin was happy to see that his luck this season was working out better than last. He has had good finishes, especially when he purchased a new car!

Mike Austin is the driver for the #9. He did a great job this year with a bit of misfortune. He was leading a recent feature race for the entire race until misfortune struck. Another car took him out just as he was 1-2 feet away from the finish line! So instead of receiving his first win for the season, he ended up not finishing at all as he was unable to make the last few feet. Best of luck next season!
