

2005 IS UNDERWAY

CLIFF IN HIS #7

Cliff and Billy have spent many hours trying to figure out the set up for his car. All of their time is paying off as most of the races at [Thunder Mountain](#) are successful. Cliff has had several heat wins and is still waiting impatiently for his turn in Victory Lane. He's happy that he is 3rd in points. Again, Advance Auto Parts, Garth Fabrication, and Chris Zacharius are appreciated for their support!

Kyle is happy that the racing season at the [STMC track](#) is in full swing. He's even happier that his new engine is working perfectly and giving him his quickest lap times ever. He has won the majority of his heats, but has the bad luck of drawing, so instead of staring on the pole, he starts dead last. However, he has still managed to make his way to the front and is now 1st in points!

Other family members forthcoming...

- Curt
- Ick
- Kim
