Low fee for clinical instructors!

The Ithaca College Clinical Instructor Development Program

PROGRAM DESCRIPTION

This self paced program is designed for clinical instructors [CIs] and center coordinators of clinical education [CCCEs] affiliated with the Ithaca College Physical Therapist education program to enhance CI/CCCE effectiveness with our students.

OBJECTIVES:

- To enhance knowledge and skills in the provision of physical therapy clinical education including effectiveness in feedback and assessment
- To obtain current knowledge regarding IC curriculum, expectations, and procedures related to clinical education
- To participate in a unique learning experience

PARTICIPANTS WHO COMPLETE SIX MODULES MAY BECOME AN ITHACA COLLEGE VOLUNTARY CLINICAL INSTRUCTOR

PROGRAM OVERVIEW

Clinical Instructor Survey

An online survey to be completed first.

Enhancing CI Assessment of IC Students

This module is designed to provide the CI information regarding the tool used to assess student performance and to inform the CI of the expected level of performance for students at each level of clinical education coursework.

Providing Effective Feedback to Students

Learn what RIME is. How to use the One Minute Preceptor. How to design effective feedback strategies for the CI/Student team.

Information Exchange during the Clinical Education Placement

Learn our schedule of planned contacts and how and when to initiate contact with the IC faculty. Learn to effectively collaborate with faculty to enhance student learning.

Challenging Exceptional Students

Learn how to challenge high level students. Learn how to guide learning experiences and write measurable objectives.

Fostering Clinical Competence

Learn to identify the marginal student's needs and suggested learning activities to promote competence.

Evidence Based Practice

Learn the fundamentals of asking answerable questions and searching the literature for best available evidence.

Spasticity Management in Pediatrics (optional)

Karen Nolan, PT, MS, PCS details spasticity management interventions for pediatric clientele

BENEFITS OF BECOMING AN ITHACA COLLEGE VOLUNTARY CI

- Free access to our library via the internet Valid for one year from date of completion of required modules
- Free Ithaca College email address
- Individualized personal achievement
- Portable from one place of employment to another
- Receive important IC updates and professional news

CIDP participants must be employed at a facility that contracts with Ithaca College as a clinical education affiliate.

Other interested individuals may contact
Kathleen Buccieri at: 585.340.9612

REGISTRATION
