

ITHACA COLLEGE

Department of Biology

4:00 p.m., Thursdays

ZOOM NEW LINK for Spring 2021

Meeting ID: 964 9297 6593

Passcode: seminar

All are welcome!

Seminar Series: Spring 2021

January 28 (Leann Kanda)	Introductory meeting for students taking Biology Seminar
February 4	Summer Scholars Information Session
February 11 (Ian Woods)	Crystal Rogers, UC Davis “Sticking together: Cadherin proteins during embryonic development”
February 18 (Leann Kanda)	Ted Stankowich, California State University, Long Beach “Spines, Shields, Sprays, and Stripes: The Evolution of Antipredator Defenses and Coloration in Mammals”
February 25 (Rebecca Brady)	Computational Biology Ph.D. Candidates, Cornell University Ying Quiao “Distinguishing pedigree relationships using multi-way identical by descent sharing” Daniel Seidman “Pedigree reconstruction in the era of many thousands of samples”
March 4 (Te-Wen Lo)	Lisa Petrella, Marquette University “Worming on the Edge: What goes wrong with fertility at high temperatures”
March 11 (Peter Melcher)	Keri Segraves, Syracuse University “The evolutionary ecology of species interactions”
March 25	Student Research Options for Fall 2021
April 1 (Nanda Cortes)	Manuela Dal Forno, Botanical Research Institute of Texas and Smithsonian Institution “Lichen Diversity and its Multifaceted Symbioses
April 8 (Ian Woods and Te-Wen Lo)	Peng Huang, University of Calgary "Origin and function of tissue-resident fibroblasts"
April 15 (Te-Wen Lo)	Christina Wesolek, University of Delaware "Animal behavior to endangered species conservation: an interdisciplinary journey"
April 22 (Ian Woods)	Derek Applewhite, Reed College “The role of <i>Drosophila</i> Split Discs in the regulation of non-muscle myosin II contractility”
April 29	Biology Honors Symposium
May 3 (Monday)	Biochemistry Research Symposium
May 4-6 (Tuesday-Thursday)	Biology Research Symposium
