H&S Summer Scholars Faculty Mentor Application

H&S SUMMER SCHOLARS PROGRAM

Students proposing an independent project in the creative arts, humanities, and social sciences identify a faculty mentor to guide them through the process. Both students and faculty mentors must complete applications forms in order for those projects to be considered for a summer award.

Proposed Research

Project Title
CSCRE

Type of Project
Field-Based Study (e.g., interview, participant-observation, action research)

Student/Faculty Collaboration - is this project:
faculty-designed, with an independent component for the student

**Brief summary of the project**
CSCRE

**Will this project take place:**
On campus/in the local area

**Will you be in residence in Ithaca for more than half of the weeks that your Scholar will be working on their project?**
Yes

**Will this project involve human subjects?**
Yes

If so, you must submit your project for approval by the [Human Subjects Review Board](https://example.com) at IC. Preparing a proposal requires a substantial amount of time. Preparation of the IRB proposal can be done as part of the Scholar's project during the summer if they will continue the project in the following year. If they intend to begin the research with human subjects during the summer, the proposal must be approved before the start of the summer.

**Will this project continue into the academic year?**
Not sure

**Student Evaluation**

**How long and in what capacity have you known the applicant?**
n/a

**How would you rate this student compared to other students in your department?**
in the top 10%

**What skills and experience does the student applicant have that qualify him/her to participate in the project? (In your answer, please include your assessment of the applicant's overall academic performance, reliability, and maturity.)**
n/a

**Briefly describe the role you will play as the Faculty Mentor and the role that the Summer Scholar will play in this project. (In your response, please discuss your mentoring plan with respect to how you will interact and collaborate with the Summer Scholar during the summer experience.)**
n/a

**How will participation in the project benefit the Summer Scholar?**
n/a

**How will you provide the Scholar with opportunities for structured reflection?**
n/a

**How will you evaluate the success of the Summer Scholar's work and the success of the summer project? What role will the structured reflections play in your assessment of the success of the**
summer experience?
n/a

If you are mentoring a team of students, or more than one student, please describe your plan for mentoring THIS student conducting research/scholarship with you during the summer.
n/a

Expenses

Are there expenses associated with your participation in this project? (e.g., travel, materials, fees)
Yes

Please briefly describe the types of expenses and provide an amount up to $600 for which you may need support.
$300

Total Expenses
$300.00
