What is the House Archives Internship Program?

The House Archives captures the legislative and social history of the Pennsylvania House of Representatives by collecting, preserving, and providing access to permanently valuable materials created by the House. The collection includes Committee Records, Papers of Former Members, Photographs, Campaign Materials, and Oral Histories.

The internship is a structured educational experience designed to provide hands-on, real world experience that complements students’ academic work. Interns work alongside professional archivists and research staff on both on-going programs and special projects. The internship provides a great opportunity for students interested in public history to gain valuable training and experience which can be applied later in their professional careers.
