

## H&S Summer Scholars Application - Summer 2024

### General Information

Student Name \*

First Name

Last Name

Student Email \*

ID Number \*

## Expected Grad Date \*

December 2024

Select your graduation date from this drop down list

## GPA \*

## Major \*

Anthropology

Select your major from this drop down list

## Minor

Fill this out only if your mentor is in your minor department

## What are your pronouns? \*

- She/her     He/him     They/them     She/They     He/They  
 Other:

## Are you financial aid eligible? \*

- Yes     No     Don't know

*Note: The program has a mix of positions, and some require financial aid eligibility; if you are financial aid eligible, you can be considered for a Scholar position that is supported by specific programs such as the Dana Internship program.*

## Have you previously done research through the H&S Summer Scholars program? \*

- Yes

No

For this coming summer, have you also applied for summer position(s) external to Ithaca College? \*

Yes

No

### Program Participation and Expectations

The Summer Scholars program expects students to work full-time in the program and not to take additional outside employment or have other substantial obligations outside the program. Standard compensation for Scholars is a wage of \$4,800 (before taxes), based on 8 weeks of full-time work (37.5-40 hours/week). For budgetary reasons, the program may not be able to subsidize room and board expenses this summer. Be sure to consult the Scholars web page for detailed information about program parameters, compensation, and expectations.

I have considered the wages provided and the cost of participation, and I confirm I will not take additional employment if I receive a Summer Scholars award. \*

*H&S is committed to having an open and inclusive Summer Scholars program; one of our goals is to assess the degree to which we are progressing in this direction. To help inform our effort, we would appreciate your answers to the demographic questions below. All answers are confidential and will not be considered as part of the review process for making Scholar awards.*

### Gender Identity

Woman

Man

Transgender

Non-Binary

Genderfluid/Genderqueer

Prefer not to answer

Other:

## Are you a first-generation student?

- Yes
- No
- Don't know
- Prefer not to answer

Students (and their siblings) who are the first in their family to attend and graduate from a four-year residential college in the U.S. are considered First-Gen.

## STEM Research Projects

Please complete this section if you would like to be considered for a STEM summer research position working on faculty-led projects in Biology, Biochemistry, Chemistry, Computer Science, Environmental Studies/Sciences, Mathematics, or Physics/Astronomy.

For information about summer opportunities in the departments, please consult the webpages linked below:

- [Biology](#)
- [Chemistry](#)
- [Computer Science](#)
- [Environmental Studies and Sciences](#)
- [Mathematics](#)
- [Physics and Astronomy](#)

Preference will be given to students who have discussed potential summer projects with a specific faculty member, so you are encouraged to contact faculty members that you would be interested in working with before you submit this form.

Below, please identify up to two faculty mentors whose projects you are most interested in working on.

### Program Dates

The Summer Scholars Program runs from May 29 through July 26. *All Scholars are expected to begin the program by May 31.* The expectations are that Scholars work for 8 weeks in this time period. Sometimes, Scholars make plans for summer vacation; you may take up to (but no more than) one week/5 business days of unpaid vacation or time off during the period you are participating in the program and make up the missed days at the end of the program.
