

## Seminar Series: Spring 2019

*unless noted otherwise*

- January 24**      **Introductory meeting for students taking Biology Seminar**
- January 31**      **Summer Scholars Information Session**  
(Te-Wen Lo)
- February 7**      **Kim McArthur**, Southwestern University  
(Ian Woods)      “Migrating Neurons in Brain Development and Evolution”
- February 14**      **David Putnam**, Cornell University  
(Dave Gondek)      "Treating Arthritis and Vaccinating Kids using Functional Biomaterials"
- February 21**      **Craig Brodersen**, Yale University  
(Peter Melcher)      “How to build a leaf: New insights into plant structure and function from the inside out with X-ray imaging”
- February 28**      **Joshua Messinger (Biochemistry ‘14)**, Duke University  
(Dave Gondek)      “Identifying Host Biomarkers of Epstein-Barr Virus Latency”
- March 7\***      **KathyAnn Lee (Biology ‘15)**, Albert Einstein College of Medicine  
(Ian Woods)      “Regulation of *Bucky ball* – and essential mediator of Balbiani Body formation and Oocyte Polarity”
- March 28**      **Student Research Options for Fall 2019**
- April 4**      **Christina Schmidt**, Wells College  
(Te-Wen Lo)      “Physiological Costs of Reproduction in Vertebrates”
- April 11**      **Karan Odom**, Cornell Lab of Ornithology  
(Nanda Cortes)      “Losing or Choosing? Reconstructing the evolution of female and male bird song”
- April 18**      **Kinga Stryszowska-Hill**, Wells College  
(Te-Wen Lo)
- April 25**      **Biology Honors Symposium**
- April 29**      **Biochemistry Research Symposium**  
(Monday)
- April 30 - May 2**      **Biology Jr. Research Symposium**  
**Tuesday-Thursday**

**Revised**
