IC MAP MEDICAL AMNESTY POLICY

The IC Medical Amnesty Policy (IC MAP) was created to encourage students to call for help in alcohol or drug-related emergencies without fear of college judicial consequences. In MAP cases, the student who receives medical assistance and the student who summons help are not sanctioned through the college judicial system. Completion of the BASICS Education Program is required. All students are expected to read and abide by the full IC MAP policy, which is available at:

Sanction & Intervention Protocol For Alcohol and Marijuana Violations

This protocol is intended as a guideline for judicial decisions regarding the minimum sanctions and interventions which shall be imposed for student alcohol and marijuana violations. **Sanctions may accelerate based on the progression, severity, or frequency of the violation, particularly when sale or distribution of alcohol or other drugs, or threatening, violent, and/or destructive behavior is present.** Accelerated sanctions may include removal from campus housing, suspension, or expulsion. Criminal prosecution may also occur in cases that rise to the level of a crime. Violations accrue over the course of a student's entire matriculation period. Once a student commits a Level II violation, any future violations within a year of the date of the first will be considered Level II, even if the violation is Level I. If a full year passes without incident, then a Level I violation will be considered as such.
